1. Applicant's election without traverse of Group I in Paper No. filed 6/15/05 is acknowledged.

It is noted that in the Restriction, the **claimed numbers** of Group I (claims 1-13 and 22-34) and Group II (claims 14-21 and 35-38) are belonged to the PCT/US04/32117. The correct **claimed numbers** are: Group I, claims 19-31 & 40-52, and Group II, claims 32-39 & 53-56.

Claims 19-31 & 40-52 are examination.

2. The abstract of the disclosure is objected to because the abstract should be limited to a single paragraph within the range of 50 to 250 words.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical

Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000.

Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

(f) he did not himself invent the subject matter sought to be patented.

(g)(1) during the course of an interference conducted under section 135 or section 291, another inventor involved therein establishes, to the extent permitted in section 104, that before such person's invention thereof the invention was made by such other inventor and not abandoned, suppressed, or concealed, or (2) before such person's invention thereof, the invention was made in this country by another inventor who had not abandoned, suppressed, or concealed it. In determining priority of invention under this subsection, there shall be considered not only the respective dates of conception and reduction to practice of the invention, but also the reasonable diligence of one who was first to conceive and last to reduce to practice, from a time prior to conception by the other.

Claims 19 and 40 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Mathews, Jr. et al.

Mathews, Jr. et al teach, e.g., see Fig. 1, the claimed combination. For example, Fig. 1 shows detection threshold (165) and Rank filter (140). Also, see Abstract and paragraph [0007].

4. Claims 20-31 and 41-52 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. The following is an examiner's statement of reasons for allowance: the recorded references do NOT teach or suggest the detailed features as recited in dependent claims 20-27 and 41-40.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
